

Compliance Program

DATA POLICY

1. OBJECTIVE

1.1 The objective of the present policy is to establish the information executed by the processes and their use to make **Seal Telecom's** operations feasible.

2. APPLICABILITY

2.1 The present policy applies to all the processes and collaborators of **Seal Telecom**.

3. GUIDELINES

3.1 Collection and use of information

To provide **Seal Telecom's** services and products, it is necessary at given times to collect information about service providers in order to enable registration and access to the facilities of **Seal Telecom's** customers.

The types of information collected are strictly adequate to the need to make the business feasible and serve the customers in compliance with current local laws.

3.2 Information storage

To meet the needs of **Seal Telecom's** customers and partners, processing of information is necessary; such processing depend on the type of assistance involved. The purpose of the stored data shall always be informed, and this data shall not be used for other purposes. The types of information collected depend on the use of the customer in relation to **Seal Telecom's** products and services.

If any data is requested where there is no agreement on the supply, this data should not be provided; in this case, the reason for requesting the data in question should be questioned. After due clarification, it shall be possible to choose not to provide the data. However, if this is a critical information for **Seal Telecom's** operations, we reserve the right not to proceed with the service.

The collected data shall never be provided to other customers, partners, or suppliers, without the express and written consent of the one who provided the collected data.

3.3 Consent

Even with the consent that the collected data be passed on to partners or suppliers of **Seal Telecom**, there is the full right to review this decision (in other words, to "change your mind"), at any time; for that, it is enough to inform **Seal Telecom** the wish to cancel the transfer of data.

The personnel working in the processes are in line with **Seal Telecom's** Data Policies, being prepared to comply with what is defined by the party that provided the data, always in compliance with the local laws in force.
